## DESCRIPTION

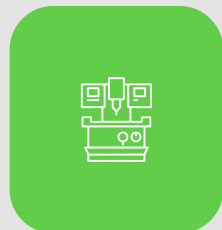

**AGROMAR** is a family business founded in 2006, focused since its origins on delivering quality raisins, in addition to an outstanding service and delivery to our customers. Thanks to God and the work of our teams, we have managed to grow year after year. This has allowed us to be involved from the planting of grape vines and their harvesting to the formation of our own processing, packaging, and exportation plant.

The quality and service that we are known for have allowed us to cater to different world markets, and today we export to the major continents and countries. We have achieved this progress by aiming to be efficient and strict in each step of the process of grapes becoming raisins.

**Strict quality control practiced by expert personnel** who monitor each step of the process, following up in detail and correcting any deviation from it.

Production line of the highest world standard. **Machinery made of 100% stainless steel.**

### Certificates

- BRC
- Halal
- Kosher

### Strict quality control in each step of the process:

- Grape harvesting and selection.
- Sun and oven drying.
- Calibrated by size.
- Selection of fine raisins passing through x-rays, lasers, manual selection, and metal detectors.

Production capacity of **6 thousand tons per year.**

# QUALITY OF THE PRODUCT

Members of International Nut and Dried Fruit Council

## CUSTOMER SERVICE

We are a company focused 100% on the wholesale market. Therefore, our packaging is uniform in boxes of 10 kgs or 30 lbs. This allows us the **speed and flexibility** to cater to the needs of our customers, always searching for the best alternatives that each season offers for each request.

The **efficiency** we are known for in each step of the process allows us to make decisions quickly and swiftly. At the same time, this efficiency makes it possible for us to deliver the best price/quality relation in the market.

Finally, we are aware that despite our wholesale focus, the product has not finished its cycle until it has satisfied the consumption of each one of our end consumers. Therefore, we concern ourselves with the **follow-up, response, and solutions** until the final stage of the consumption process.

## TEAM

We trust that the main characteristic to achieve our goals is to count on a **professional, demanding team that shares our same culture**. This is why our hiring processes always search for these characteristics in our applicants.

**At the same time**, we feel proud to share a Chilean farm culture, that translates into closeness and camaraderie between all of the staff members. The characteristics of focus and closeness can be found in our most senior to our newest employee.

We handle all of the details so that the products reach their destination using the fastest, **most economic, and safest transport**. All of this is done with the highest logistical standards.

## ETHICS AND RELIABILITY

Our staff maintain a strict code of ethics in every position. Based on experience, facilities, and our own production, our company offers the best conditions to supply its products to the markets with competitive prices.

**“Our number of years in business shows the reliability of the company and its responsibility.”**
